Description

New York Times bestselling author Kelley Armstrong has captivated readers with her spellbinding Women of the Otherworld series. In this collection of four tales, she gives equal time to the men who love these sexy, supernatural women--men who live on the wild side.

As a curious six-year-old, Clayton didn't resist the bite--he asked for it. But surviving as a lone child-werewolf was more than he could manage--until Jeremy came along, taught Clayton how to straddle the human-werewolf worlds, and introduced him to the Pack. So begins this tantalizing volume featuring three of the most intriguing members of the American Pack--a hierarchical founding family where bloodlines mean everything and each day presents a new, thrilling, and often deadly challenge. For as he grows from a wild child to a clever teen who tests his mentor at every turn, Clayton must learn not only to control his animal instincts but to navigate Pack politics--including showing his brutal archnemesis who the real Alpha is.

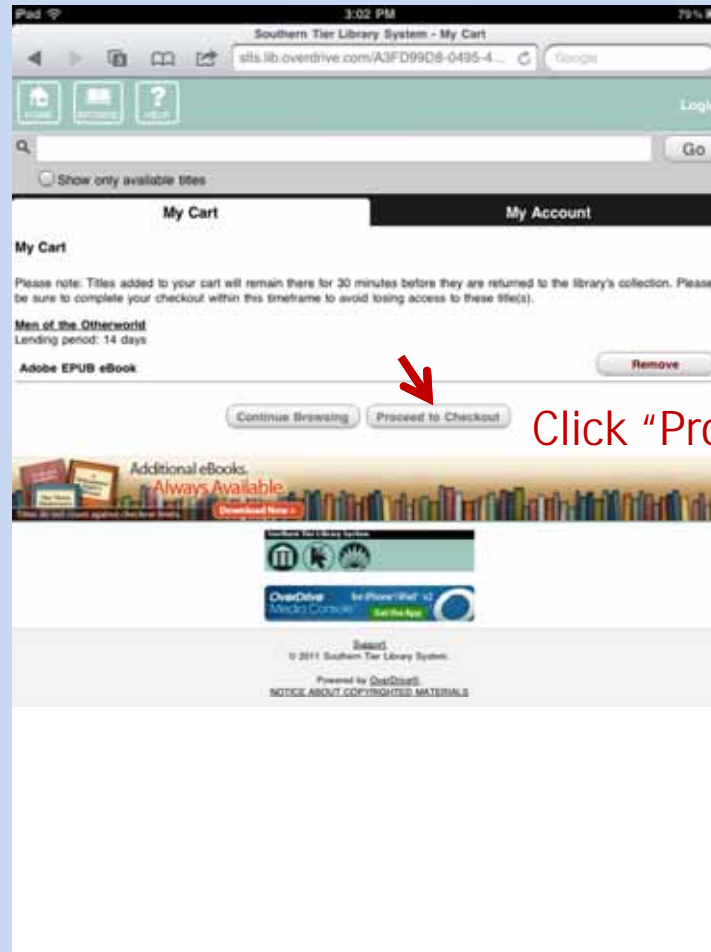

Excerpts

From the book...

"Antonio." Dominic walked to the table and plunked down a bottle of cheap champagne. "I've decided to name him Antonio." Malcolm sipped his beer as a chorus of "good choice" rose up from the others. Wally and Raymond Santos glanced Malcolm's way, as if seeking permission to congratulate Dominic, but Malcolm just kept drinking and his men make up their own minds. After a moment, Wally joined in with a raised glass to the new father, while sixteen-year-old Raymond busied himself cleaning out a thumbnail. Dominic paused behind the head chair. Billy Koenig scrambled out of it, making a quick joke about keeping it warm for him.
